

## HEALINGS IN MANITOBA THROUGH BOB CANTON MINISTRY

Bonnie – I am happy to report that my frozen shoulder, that had bothered me for months, is now healed. I have full range of motion and it does not ache at night or in the morning which were always the worst times. Thank you Lord!

Donna – My back was healed, praise the Lord!! I had back pain since Aug 1, 2011 and was healed on the Saturday evening.

Judy - I was invited by my friends to attend the healing service with Robert Canton. When he called for people with Fibromyalgia, to come forward, I did. I have never felt anything so powerful in my life. When he put his hand on my head, there was an enormous surge of heat that went through my body from the top of my head to my toes, and I went down (as I observed other people before I went up myself, I told myself that I would be able to stay standing). I was diagnosed with Fibromyalgia in 1997, and since then have experienced pain every day (the only exceptions have been when I have had a massage and enjoyed a pain-free day, on the following day). For the past 10 or 12 years my pain has been centred in my neck and shoulders. I have not had any neck pain since the healing service. I consider it nothing short of a miracle. My thanks to Robert Canton, as well as my friends for inviting me. As Robert Canton asked, I continue to pray for him every day.

Michel – I had a stomach ache prior to the weekend with Robert Canton. On Saturday evening, the pain was totally gone. I'm not sure what the problem was in the first place but it had been present for over a week.

Marvin – Praise the good Lord. During the Winnipeg service I was healed from a sore arm and shoulder. Also, my wife and daughter were healed of depression. I witnessed a mighty anointing of God's power Friday and Saturday.

Eudora – I have had restless legs for awhile but now it is not that bad. I did not request healing for my legs but resting in the Spirit I believe I had some healing.

Marko – I would like to thank all the people for the prayers. A couple of months ago, I was diagnosed with COPD (chronic obstructive pulmonary disease) by the radiologist during my chest X-ray check. I know that the only visible COPD on X-ray is mid to advanced stage of emphysema. Asthma and Bronchitis are not visible on X-ray. Emphysema is a hard lung disease. It was a challenging time for me and my wife to wait for the lung specialist appointment which happened yesterday after 2.5 months of waiting.

God gave this time to work on myself and to experience all the blessings he was pouring out for me. This was the time of challenge and purification that God sends to people he cares about. I had realized what is important and what counts in our life. I knew I will never be the same after this, doesn't matter what happens. Jesus was there for me all the time and I trusted with all my heart. I was in peace.

This weekend I went to CCRS healing Mass and was prayed over by Robert Canton, guest speaker.

I was seen by Dr. Taraska on Monday. He sent me to do Spirometry which tests capacity and commented of how strong my lungs are. After the test, I was told that my lungs are healthy and 20% bigger capacity than average healthy man my size. He had his explanation that tall men get misdiagnosed because of the size of the lungs, but I had my explanation which I like more.

Elaine – I received a total healing of my lower back at the conference. I've been suffering from this for 48 years. My upper and middle back are also doing much better...? a healing in progress? I thank the Lord every day for the beauty of movement without pain and for the feeling of strength in that area as well. PRAISE THE LORD! NOW AND FOREVER!

Carla – It was awesome to have you here in Winnipeg. I enjoyed your talks so very much and I am anxious for my husband to hear you speak in May 2012 during the Conference. I have a praise report from the weekend. I was injured at work leaving me with a lot of pain and decreased range of motion in my left shoulder. Two weeks ago I had an MRI that showed I have a tear in my rotator cuff. You prayed over me at after the healing Mass on Saturday evening. Nothing happened right away but Sunday night I was having trouble sleeping and I felt this strange twitching over and over again in my left arm. I had this overwhelming feeling that I was being healed and I couldn't wait to get up to try out my arm. Well, first I reached for my alarm clock which was very painful for me and "no pain", then I tried reaching for the light switch above my bed which had also caused me a lot of pain and "no pain" then. I began to sob. Thank you Jesus! Thank you! Thank you! It is not 100% and I do not have my range of motion back but the pain is about 98% lesser than before. Praise the Lord!!

Rosalyn – I received a spiritual healing as well as a physical one. I was among the women up there who were having difficulties conceiving. Well, I just got the good news from my doctor that after my pelvic examination and ultrasound results came in, they found nothing wrong in those areas and that everything was working properly! I was overjoyed at this and I knew in my heart that Jesus had healed me. We are confident that if it's in God's will for us to have a child, then we will happily welcome it! At least I know that physically, everything is working the way it should be and that alone just makes me so very grateful.

Spiritually, I find that I am handling trials and tribulations much better than I used to. Although it's a work in progress, I'm slowly learning to rejoice in being able to share in Jesus' suffering instead of feeling sorry for myself. Like Robert said, healing comes in instalments and not all at once...this is something I will continually pray about and hopefully learn to do so with a better attitude...I know that with Jesus' help it will get better over time!

### **HEALINGS IN DAUPHIN, MANITOBA, CANADA**

One woman shared how her frozen shoulder was healed. That she was in pain for over a year and a half with this shoulder, with not being able to dress herself easily. Her arm couldn't raise up very high, but she said that she is a believer now, but that before she came she was a skeptic.

Ron – He had one hearing aid for about 3 years and the other for about a year. He hears perfectly in one ear, but the other ear is not quite there yet, but he is believing for full healing on that one too!

Cory - Hello, just dropping a line to let you know that we were in Dauphin and experienced something I will never forget. My dad passed away two years ago and both my mom and I have struggled since. My dad was my best friend, next to my wife, and he fought cancer for nine years before it took him. I witnessed many things in Dad's struggle and seen him beat the odds repeatedly. When he did pass, I had a hard time accepting what had happened and as crazy as it sounds, was very upset with God. Robert Canton said God told him I was confused and to stay with God and things would be alright. Now during the course of the healing service, I was catching those who experienced healings and was present when my mom was prayed over. Robert described my dad, even what he liked to wear and told my mom that Dad was with God and that Dad said we didn't need to worry or have a sad heart. Now, my mom was very skeptical and wasn't going to go up until I convinced her, she didn't expect to receive the gift she received and it has changed the way she feels. She still misses Dad, but it has changed. She is able to sleep the night for the first time in almost two years. Her attitude has improved dramatically and it's nice to have my mom back.

My mom's cousin was also there and has needed two hearing aids for the past sixteen years. I witnessed him walk away with his hearing aids in his pocket. I have talked to him over the past week and he hasn't used or needed them since. I didn't expect to see what I saw and it was very touching. Thank you Robert, you are truly a gift from God and I am forever grateful for the experience. God bless you.

---

Another lady from Dauphin received a great healing in her eyes and now has 20-20 vision.
